DR= Debut run

A very warm but still evening making fast times unlikely and this appeared to be the case. Carly Morgan made a return to the fold after an absence of just over 7 years and was only 23 seconds off her PB which is very promising for the Women's Team. The timekeepers, without stop watches, reverted to counting the seconds so hopefully times are correct! (In fact they used their initiative and reverted to their mobile phones and all seemed to go well). Many thanks to Debs & Malc for giving their time so freely and to Amanda for collating the names.
